

Madison County Republican Committee

WHY BE A REPUBLICAN?

Be a REPUBLICAN because you believe:

- It is important to respect each person's ability, dignity, freedom and responsibility.
- Individual initiative must be encouraged in getting things done.
- Government exists to protect the freedom of each person, not to restrict it.
- Government should only do those things which the people cannot do for themselves.
- People who cannot provide for themselves deserve help and also deserve to be helped to become self-supporting citizens who can take pride in their self-reliance and independence.
- Equal rights, equal justice and equal opportunity are everybody's rights.
- Respect for laws, the courts and the Constitution are vital to preservation of the nation and security for the citizen.
- Excessive taxation, inflation and government waste can destroy our country; government must maintain sound money and a responsible economy.
- While we remain militarily strong, we must continue our efforts toward world peace and friendship.

These principles reflect a Republican's basic beliefs. Republicans have held firm to these principles for nearly a century and a quarter.

*The nation needs more Republicans today
so our nation can be stronger tomorrow.
That's the best reason to be a Republican.*
